Curriculum pathway

Students have four lessons per fortnight in KS3 and three lessons per fortnight in KS4. Through a broad and inclusive curriculum, every student is supported to develop physically, socially and emotionally through sport, physical activity and movement.

Students experience a variety of pathways including team games, fitness, wellbeing, creative activities and leadership opportunities. Lessons are delivered in a range of single-sex and mixed-gender groups by both male and female teachers, ensuring all students feel supported, challenged and included.

Our priority is not simply performance, but helping every student to Move with confidence, Think independently, Feel successful and Connect with others, regardless of ability or experience.
